

Staying Competitive with Best IT Performance

Running your business successfully means having the best performance. Our Data Center Professional Services help you stay competitive regarding your IT environment.

You are looking for opportunities how to improve your IT performance? Think of your Data Center Facility – is it up-to-date / can it be optimized?

AVIANET will help you to assess the situation and then design / re-design your Data Center Facility accordingly to your needs.

FACT SHEET | Data Center Professional Services

With our Data Center Professional Services we support you in all aspects of your data center facility needs, might it be assessment, design, build, or migration / consolidation. On your specific business needs, we will then develop a plan covering the number of data center facilities that you need, how they should be constructed, and which infrastructure is needed.

AVIANET Supports You With:

- Data Center Assessment
- Data Center Design
 - ✓ Facility Design
 - ✓ Infrastructure Design
- Data Center Implementation
 - ✓ Facility Build
 - ✓ Infrastructure Build
- Data Center Migration
 - ✓ Facility Migration
 - ✓ Infrastructure & Application Migration
- Data Center Consolidation
 - ✓ Facility Consolidation
 - ✓ Infrastructure & Application Consolidation

AVIANET can help you stay **competitive** and maintain a **secure** and **robust** IT environment.

Full Spectrum for Your Data Center Lifecycle

AVIANET is offering you the full spectrum of Data Center Professional Services to keep your business run in every aspect of the lifecycle. That implies a focus on performance – your key for being successful.

We can help you to design and build you a facility that fits best for your business needs and your short-term and long-term strategic goals.

Regarding the Data Center Lifecycle, we also offer co-location and management services to support you beyond the implementation phase.

Having a well-considered Data Center facility environment will help you save costs, secure continuous working, and establish a robust IT environment which can match up with the ongoing IT trends. Being prepared for the future is always good – thus we also maintain your Data Center migration and / or consolidation plans.

Profit from Our Experience

We always work with a vendor-neutral approach to deliver you the best available service on a global basis. By choosing our Data Center Professional Services, part of our IT Professional Services, you will profit from our professional service capabilities on a local as well as on a global level. In addition, we will provide you with flexible delivery options depending on the timetable that suits you best.

We know what you need for running a successful Data Center Facility. Thus, profit from our experience in delivering customized end-to-end services. We will design / build you the required Data Center (including power, cabling, and racks), install and configure the infrastructure, and migrate or consolidate the applications and infrastructure accordingly to you business needs.

Our Data Center Professional Services support all aspects of your **Data Center facility needs**, whether it's **assessment, design, build, migration or consolidation**.

Additionally, We Can Offer You the Following Services:

- Enterprise IT Analysis
- Server Consolidation Assessment
- Application Security Review
- Data Discovery and Retention Assessment
- Virtualization Build
- Virtualization Migration
- Application Infrastructure Build
- Application Vulnerability Assessment
- Compliance Assessment
